### TERMS DEFINED

**Breadth Requirements:** Courses in the John H. Daniels Faculty of Architecture, Landscape, and Design and the Faculty of Arts and Science are classified into five Breadth categories by subject content (note that some courses are not designated and do not count toward this requirement). The purpose of the Breadth Requirement is to ensure all students graduating with a degree from the Daniels Faculty have chosen courses across a broad range of subject areas in the Faculty as part of their undergraduate education.

1. Creative and Cultural Representations (CCR)
2. Thought, Belief, and Behaviour (TBB)
3. Society and Its Institutions (SII)
4. Living Things and Their Environment (LTE)
5. The Physical and Mathematical Universes (PMU)

**Unspecified transfer credit:** A course that has no exact equivalency in the Faculty. For example, ARC1\*\*H1 represents an unspecified first year credit in Architecture. Unspecified credits may be used to meet prerequisite, program or breadth requirements as long as permission is obtained from the relevant Program Director or the Office of the Registrar and Student Services.

*Subjects not listed below may still be considered for transfer credit. The Daniels Faculty reserves the right to change transfer credit policies without notice*
